

Gas Roller Guide

Part No. TJ1601 to TJ1699

Key Benefits

- Rapid accurate cutting with absolute control
- Angle adjust for square edge
- Profile fit to torch head
- Brass Body easily fitted, no tools

At Home Page on website use **Buy Online** or **Find Distributor** to source product

Tanjant's Gas Roller Guide improves cutting operations from the first use. The sintered iron wheels spin freely on stainless steel axles and are fitted with a unique hub-guard to ensure free rolling, no jamming. The durable Brass Body is easy to fit, no tools required. Gloves should be worn when handling.

Each Roller Guide is profiled to match a specific Gas Torch. Use the Torch Look-Up feature on the Tanjant website to select Torch Brand and Model. The search result will display the correct Part No for the Roller suited to your torch. Another option is the Multi-Fit for nozzles up to 18mm (11/16") with 12mm (1/2") parallel section below retainer nut. See more on website.

Wheels are height adjustable for correct clearance. Limited bevel cutting an option by setting wheels up and down to tilt guide body.

The Gas Roller Guide may also be used with other Tanjant products including TJ6051 Radius Bar and TJ6086 Magnetic Pivot.
